"SNAPEEZ® are another groovy finding from Via Murano. Just think...no more soldering of jump rings! No more using those unsightly split rings to attach your charms! Link your wire wrapping with SNAPEEZ® for supple movement! Brush, snap and wiggle and the SNAPEEZ® are solidly closed."

Measurements: 6 mm outside diameter made from 1 mm wire

Priced per: each

Package of: 1 pce

Material: Brass

Color: [14K/20 Gold-Filled](#)

Place of origin: USA

Please note!

Gold-plated products have a very thin layer (seven-millionths of an inch) of gold, while 14K/20 gold-filled products must have at least one-twentieth of their entire weight in 14K gold. What this means for you as a beader is that gold-plated items, while cheaper, will not last as long. Eventually the thin gold layer will rub off. Gold-filled items, however, will remain gold for a lifetime if cared for properly. The occasional silver spot is from solder holding joints together. Unless you are using harsh chemicals or abrasives, the gold layer will stay gold for years to come
